EDUCATION

B.Tech – CSE (Artificial Intelligence & Data Science)

Shri Vishnu Engineering College for Women, Bhimavaram

CGPA: 9.35 / 10.0

Expected: 2027

Senior Secondary (Class XII) – CBSE

Bharatiya Vidya Bhavans

Percentage: 85%

2023

Secondary (Class X) – CBSE

Bharatiya Vidya Bhavans

Percentage: 92%

2021

EXPERIENCE

Software Testing Intern • Qentelli

May 2025 – Jul 2025

- Automated functional test cases using the AccelQ automation testing framework for web-based applications, improving release efficiency and reducing manual testing effort.
- Designed and executed end-to-end test scenarios to validate core application workflows, identify edge cases, and ensure software reliability.

Generative AI Intern (Training) • SkillDzire

May 2026 – Jul 2026

- Completed a structured NSQF Level 6 training program on Generative AI with LLMs, organized in collaboration with APSCHE, with certification awarded following an MCQ-based assessment.

PROJECTS

Aadhaar Biometric Infrastructure Stress Analysis • UIDAI Hackathon 2026

Python • Pandas • NumPy • Time-Series Analysis • Data Visualization • Matplotlib

- Analyzed 1.8M+ Aadhaar biometric update records using Python and Pandas to identify spatio-temporal infrastructure stress patterns across states and districts.
- Engineered custom metrics BUIS (Biometric Update Infrastructure Score) and DSI (District Stress Index) to detect and benchmark workload spikes via time-series analysis.
- Delivered state-month heatmaps and district-level dashboards to provide actionable insights for early-warning systems and government resource planning.

Timetable Management Dashboard • Full-Stack Web Application

HTML • CSS • JavaScript • Node.js • Express.js • MongoDB • REST APIs • JWT Authentication

- Built a centralized timetable management system with JWT authentication and role-based access control.
- Engineered RESTful APIs with full CRUD operations using Express.js and MongoDB.
- Added multi-department faculty support and safe working-hour limits to prevent overload.
- Currently automating timetable generation with real-time conflict checks and 3-period lab scheduling.

Verdira – Carbon Footprint Tracker • H2S PromptWars Hackathon

React • Express.js • Gemini API • Google Antigravity • Render

- Built and deployed a full-stack carbon-tracking app in ~2.5 hours using a no-login, local-storage-first design for sub-30-second daily logging.
- Integrated the Gemini API through a secured backend, keeping the API key off the frontend.
- Used Google Antigravity for agentic-assisted development; independently caught and fixed a model-reference error and a near-exposed API key.

SKILLS

Programming Languages: Python, C, SQL

Web Development: HTML, CSS, JavaScript, Node.js, Express.js, REST APIs, CRUD Operations

Data Analysis & Visualization: Pandas, NumPy, Matplotlib, Tableau, Time-Series Analysis, Data Visualization

Concepts: Machine Learning, Clustering, Data Structures and Algorithms (DSA)

AI & Prompt Engineering: Prompt Engineering, Generative AI Tools, Google Antigravity, Agentic AI Development, Responsible AI Practices

Testing & Tools: AccelQ, Automation Testing, Agile Methodology

ACHIEVEMENTS

- UIDAI Data Hackathon 2026 – Submitted a national-level analytical project on spatio-temporal stress analysis of Aadhaar biometric infrastructure.
- Deloitte Data Analytics Job Simulation – Built interactive Tableau dashboards applying industry-grade analytics practices to real-world business scenarios.
- GDG Internal Hackathon – Developed a working prototype for the Google Solution Challenge, demonstrating rapid prototyping and collaborative problem-solving.

POSITIONS OF RESPONSIBILITY

- ACM-W Core Team Member – Co-organized “Visualize the Invisible – Where Algorithms Come Alive,” a technical event focused on DSA visualization and student engagement.
- Active Member, ACM (Association for Computing Machinery), College Chapter – Contributed to technical community building, event planning, and peer knowledge-sharing.

CERTIFICATIONS

- Google AI Essentials & Google Prompting Essentials – Google Skills.
- Introduction to Generative AI & Generative AI Leader Path – Google Skills.
- Microsoft AI Skills Fest 2026 – Completed 5 learning playlists on applied AI; earned a Microsoft Credly badge.
